EDUCATION

Bachelor of Science in Computer Science & Information Technology | Veda College, Tribhuvan University
Expected 2025 (2082 B.S.)

Higher Secondary School (+2, Science) | BajraBarahi Campus 2020 – 2021 (2077–2078 B.S.)

INTERNSHIP EXPERIENCE

Software Development Intern | Anand Marketing Tech — IT/Development Jan 2026 – Present

React.js, Redux Toolkit, Node.js, Express.js, JWT, Django REST, PostgreSQL, Redis, Git, Vercel

- Architected and deployed Version 1 of Arma Fashion, a multi-vendor single-page e-commerce platform serving 3 vendor stores, with role-based dashboards for Admin, Client, and Normal users
- Engineered Redux state management layer reducing API call redundancy and enabling real-time product and banner data across the SPA
- Resolved critical production blockers including CORS misconfiguration, Vercel/Cloudflare DNS conflicts, and sub-domain routing errors, enabling successful live deployment
- Built MERN backend authentication system with JWT Access Token and Refresh Token rotation, Login/Logout controllers, RESTful routes, and Logout Middleware — all endpoints verified via Postman
- Led UI/UX design and prototyping for Arma Fashion in Figma — delivered complete user flows (landing, auth, cart, payment) and responsive layouts for luxury brand pages (Merci, Euphoria)
- Collaborated directly with CEO to design and develop the Anand Marketing SPE Admin Dashboard; implemented dynamic routing, folder architecture, and Redux-based API state management
- Onboarded and mentored 4+ new interns on Figma, Canva, Git workflows, and project tooling during January 2026

PROJECTS

Arma Fashion — Multi-Vendor E-Commerce Platform | Internship Project 2026

React.js, Redux Toolkit, Axios, Django REST Framework, PostgreSQL, Redis, Khalti, Vercel, GitHub

- Delivered production-ready multi-vendor SPA with 3 vendor stores (Flower, Serum, Party Wear), admin and client dashboards, and role-based access control for 3 user types
- Implemented banner management module, paginated product listings, and sub-domain routing; authored comprehensive system flow documentation (PDF) for stakeholders

MERN Stack Authentication System | Internship Project 2026

Node.js, Express.js, JWT (Access & Refresh Tokens), Postman, GitHub

- Designed and implemented secure stateless authentication with JWT Access and Refresh Token rotation, Logout Middleware, and full RESTful route coverage — tested via Postman environment variables

Learning Management System | Personal Project 2025

MongoDB, Express.js, React.js, Node.js (MERN Stack), Stripe

- Built full-stack LMS enabling teachers to publish and sell courses and students to purchase and access content online, with complete user authentication and Stripe payment gateway integration

E-Commerce Website | Personal Project 2025

WordPress, WooCommerce, Stripe

- Developed a multi-product merchant e-commerce site using WordPress and WooCommerce plugins with Stripe payment gateway, supporting end-to-end product listing and checkout flows

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, SQL,

Frontend: React.js, Redux Toolkit, React Router, Axios, Responsive Design

Backend: Node.js, Express.js, JWT Authentication, RESTful APIs

Databases: MongoDB, PostgreSQL,

Tools & Platforms: Git, GitHub, Postman, Figma, Canva, Vercel, WordPress, Trello, Microsoft Office

LEADERSHIP & ACTIVITIES

- Team Lead — directed UI/UX development for Arma Fashion project; coordinated daily standups, design reviews, and GitHub branch management across a 3-person team
- Group Leader — led LMS project team through multiple stakeholder presentations and college-level events
- Intern Mentor — trained new interns on Figma, Canva, and Git; structured onboarding sessions covering tool fundamentals and project workflows
- Active participant in CEO strategy meetings, sprint planning discussions, and cross-functional technical debriefs at Anand Marketing Tech
